

Farmhouse Rag Wreath

Supplies

Included : 8" wire wreath form, cotton fabric, jute (for hanging)

Not Included: Scissors, ruler

1. Using a ruler, measure out approximately 1" x 6.5" length of fabric. Snip just a little piece with the scissors, then tear the fabric in strips. This will give you the "tattered" edges. (*You will need approximately 168 strips of fabric depending on how full you would like your wreath*)
2. Take your first strip and tie it in a knot to the outer 2 edges of the wire form (I used a square knot-"**right over left/left over right**"). Then take another strip of fabric and tie it on the 2 middle wires. Then tie a 3rd strip on the last 2 wires. Continue this process all the way around until your entire wire form is filled. Randomly interchange your two different fabrics.

Front

Back

3. Once the wreath is filled to your desired fullness, tie a piece of jute to the top for hanging.

HAVE FUN !!!
