

Painted Cork Coaster

Supplies

Included : cork coaster, paint and modge podge (MP)

Not Included: masking tape or painters tape (optional), paint brush

1. Determine the shape or design you would like to paint on your coaster
 - Free hand the design
 - Use the optional masking tape to create a geometric design like in the below image

2. Paint your design
3. Let the paint dry fully (If you used tape, peel off the tape carefully.)
4. Apply a thin and even coat of modge podge over the coaster. [The container with MP on it is the Modge Podge.] This will help seal the coaster for any sweating that a cup may give. (Recommended to apply three coats.)
