

Tote Bag

Supplies

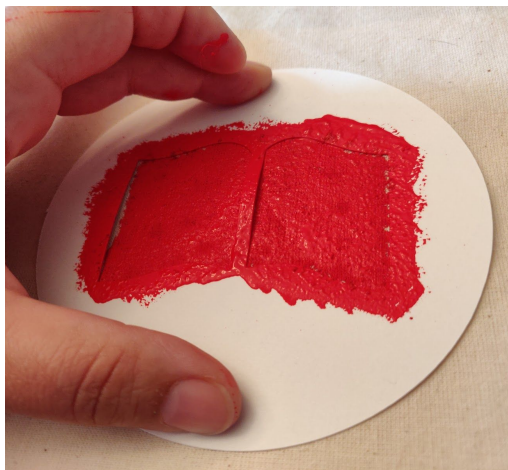

Included : Tote bag, stencil, paint and sponge brush

Not Included: Paper Towels

1. Insert triple layer of paper towel inside the tote bag under the location that you would like to place the stencil.
(This is to ensure that the paint does not get on the reverse side of the tote bag.)
2. Place the stencil where you would like to on the tote bag.

3. Dip your sponge brush in the paint to get some paint on the brush but do not saturate the brush.
4. Holding down the stencil with your fingers of one hand while the other dabs at the stencil to fill in with paint.

5. Carefully take the stencil off to reveal the design

Make the tote bag your own. Enjoy the creative process.
